A.R.U.MEN MAY JOIN CHICAGO STRIKERS

LITTLE HOPE OF FIXING THE THING UP.

The Railroad Switchmen May Join the Steel Workers and It Is Now Said That the Trouble Has Only Just Commenced—Coatmakers Go Back to Work.

Chicago, May 9.—There is now less prospect than ever there was of a peaceful termination of the strike at the mills of the Illinois Steel Company at South Chicago. At a meeting held last night local lodge No. 511 of the American Railway union indorsed the strike, and the probability is that this morning will see a refusal on the part of the switchmen employed by the Calumet & Blue Island railroad to handle any cars consigned to the Illinois Steel Company.

The company has already enough coke on hand to handle a great many of its orders. But the inability to use its furnaces owing to the strike promises to cause a permanent tie-up. It had been intended to conteract this and keep contracts by bringing pig iron from outside points. This move will be effectually blocked if the switchmen carry out their threat. The men held a secret meeting yesterday evening and it is believed they are only waiting for the indorsement of the Switchmen's union to go out on strike.

It was officially announced yesterday that the company intended to blow out its furnaces during the afternoon and then close down the works. It was announced that the company did not want to hire any men. Simultaneous with these announcements an order was given that all reporters should be barred out of the works. This order was carried out. The strikers declare the company is running in many new men and does not intend to close its works down, and they say the only reason for barring out reporters is that the company does not wish any news of its doings to get to the outside world until all arrangements are made.

The English-speaking employes of the Illinois Steel Company took their first action in the strike last night. It came in form of sympathetic resolutions on the part of lodge No. 512 of the American Railway union. The union has 285 members in the employ of the company as front men in the furnaces. They represent the skilled class of labor, as they handle the product after it has gone through the process of melting. Last night's meeting was held in secret, but it was learned the American Railway union men passed resolutions sympathizing with the unskilled workmen who took the initiative in the strike.

The men who struck are the furnace men. For the most part they are foreigners. The majority of them are Poles, with a good number of Hungarians, Slavs, and a few Bohemians mixed among them. Only a few of them can read, and hardly any of them can sign their names. These men live in overcrowded rooms, four adults and almost as many children often sleeping in one apartment. Men sleep two and three in a bed and live on the plainest food.

The laborers, as far as could learned, from their statements, are ing paid 10 cents an hour or $1.10 a day for twelve hours' work, the furnace men range from $1.10 to $1.65 for twelve hours' work. The latter claim two years ago they were being paid $2.25. The pig molders, who now get $1.65, say their wages have been cut 80 cents since two ago.

Six Hundred Coatmakers Go to Work.

Philadelphia, Pa., May 9.—Six hundred more coatmakers went to work on their own terms yesterday, and over a dozen contractors signed the Knights of Labor agreement, which will send nearly 400 more back to work. Thus far about 2,000 strikers have returned to work, leaving about that number still out.

Miners Go Back.

Springfield, Ohio, May 9.—The Stockdale, Allen and Fidelity mines on the Wheeling division of the Baltimore and Ohio railroad resumed work at 47 cents per ton.

Will Resume Work.

Washington, Ind., May 9.—The Coal Miners' union decided to return to work at the old scale. The Montgomery miners will also resume work.

Advances Wages.

Akron, Ohio, May 9.—The Mill Sewer Pipe company has advanced the wages of its employes from 5 to 10 per cent.

FEARS A LYNCHING.

Murderer of Park County, Colo., Taken to Pueblo.

Denver, May 9.—Joseph E. Gallup, sheriff of Chaffee county, wired Gov. McIntire yesterday that he feared a lynching should he be compelled to retain in jail Benjamin Radcliffe, the Park county school board murderer. For fear of a lynching the prisoner was taken to Chaffee county and lodged in the jail at Buena Vista. The distance is fifty miles, but it developed that the citizens of Park county intended to descend upon Buena Vista. Sheriff Gallup was authorized to send his prisoner to Pueblo by special train.

All Quiet in Nicaragua.

Washington, May 9.—The reported uprising in Nicaragua as a result of the Corinto incident appears to have been of brief duration, according to advices received by Dr. Guzman, Nicaraguan minister. A dispatch from his government informs him there is quiet throughout the country. The departure of the British fleet and the salute given to the Nicaraguan flag are regarded as the steps which have restored tranquility. No further internal discord is expected.

VICTIM OF A CONSPIRACY.

Gov. Brown Claims a Plot Was Laid to Kill His Son.

Louisville, Ky., May 9.—The Courier-Journal prints the following: "The sensation attending the Gordon double killing is not over by half. The prosecution will attempt to prove that Arch Dixon Brown's death was due to a plot to assassinate him. Governor Brown has reason to believe that the facts of his son's coming to Louisville on the day of the tragedy and his meeting with Mrs. Gordon were known to a man in Frankfort, who telegraphed to a man in Louisville. This Louisville man, the prosecution claims, notified Gordon that his wife was to meet Brown and 'actively assisted in a foul assassination.' Mr. James A. Scott, the Frankfort attorney employed by Governor Brown to prosecute the case, said:

"I want to say that Governor Brown never authorized any statement that he would not prosecute the case nor did he ever dream of granting a pardon to Gordon, as has been stated. Before deciding on the step Governor Brown took counsel with a number of intimate friends from all over the state. He came to the conclusion that it was due the memory of his son that there should be a full and fair investigation of all the facts. He was convinced that Gordon must have known that his wife was dissipated, reckless and imprudent. Governor Brown and his counsel would shrink from any attack on Mrs. Gordon's character, but would prefer to throw the veil of charity over all her acts, especially as she is dead. The future will determine whether it will be necessary to further blacken the character of Mrs. Gordon in order to show the defendant's thorough knowledge of it. I think the developments will be surprising to some people."

SOLDIERS STIRRED UP.

Commander Newman of Iowa G. A. R. Creates a Breeze.

Clinton, Ia., May 9.—Yesterday's session of the Iowa State G. A. R. encampment was given over almost entirely to business sessions of the five military and patriotic orders now holding reunions here. Incoming trains brought in nearly another thousand delegates and visitors. The business meeting of the encampment opened at 9 o'clock, when Mayor Hughes welcomed the visitors to the city. Commander Newman responded. In the annual address of Commander Newman he created considerable of a sensation in his denunciation of the soldiers who have never joined the organization.

The business session of the W. R. C. was brief. Department President E. Flora Evans' annual address showed there were 8,700 members in good standing in Iowa. There were 258 corps, 24 of which were organized last year. Reports from officers of the Sons of Veterans show a total membership of 1,562, an increase of 557 members in the last year.

MAKES A CONFESSION.

Murderer Strangely Induced to Clear Another Wrongly Accused.

Baltimore, Md., May 9.—Marshall Price has made a full confession of the murder of Sallie Dean. He says he tried to implicate Grant Corkran, the popular young school-teacher who was first arrested for the crime, because he had a grudge against him. Price indicated that he was moved to confess when he received a letter from a woman in Baltimore who signed herself "S. M. J., 1423 West Fayette street." She sent Price a prayer book, which he has in his pocket, and urged him to confess and free Grant Corkran's name.

Woman Suffrage Is Defeated.

Lansing, Mich., May 9.—A hearing was had yesterday on the proposition to submit a woman suffrage amendment to the people at the next general election. A majority of the speakers favored the proposition, but it failed of adoption, receiving 63 votes to 22 against it, a two-thirds majority of 67 votes being necessary to submit a proposition to amend the Conctitution. Several friends of the resolution were absent and on their return the measure will be taken up again, and the chances are that it will pass.

Women at Cedar Rapids.

Cedar Rapids, Iowa, May 9.—The first biennial meeting of the Iowa Federation of Woman's Clubs convened here this morning at 9 o'clock. Between 200 and 300 women are present from different parts of the state. Mrs. Henrotin, of Chicago, president of the General Federation of Women's Clubs, arrived in the city yesterday from Des Moines and will address the convention. Mrs. Linden W. Bates also is here from Chicago. Other well-known women are in attendance.

Revolvers Used in Holmes Murder.

Carlinville, Ill., May 9.—Officers have now secured the revolvers used by the murderers of Frank Holmes, the Chicago and Alton engineer. A trip was made to the farm of Mrs. Cramer, aunt of one of the men under arrest, and she after much threatening, revealed the hiding place of the weapons, which had been buried in the ground. The woman was taken into custody.

Banker J. S. Beach Acquitted.

Rockville, Ind., May 9.—The trial of John S. Beach, the Terre Haute banker charged with embezzlement, came to an abrupt ending shortly after the opening of court yesterday, Judge White sustaining the motion of the defense to instruct the jury to bring in a verdict of not guilty. A technicality in the law was the cause.

Howgate Out on Bail.

Washington, May 9.—Captain Henry W. Howgate, who has been in jail some time awaiting trial on an indictment charging him with the embezzlement of government funds, has been released on $15,000 bail.

STRIKERS GO BACK TO THEIR BENCHES

SOME SHEBOYGAN MEN DECIDE TO RESUME WORK

The Leaders Are Stubborn, However, and They May Cause Trouble Yet But the Probability Is That the Strike Will End Tomorrow—Ultimatum Issued.

Sheboygan, May 9—The prospects today are that the strike will end tomorrow. The sewer men and some chair makers returned to work this morning, but the leaders of the strike are still stubborn, and they may yet cause trouble. The ultimatum of the manufacturers was given to the strikers yesterday. All their demands for an increase in wages were absolutely refused and the manufacturers said the factories would be closed down before they would grant the demands. A long conference was held during which T. M. Blackstock, a chair manufacturer, took Mayor Born severely to task for not giving protection to the men who wanted to go to work, but were prohibited by strikers. The men will consider the ultimatum.

Milwaukee, Wis., May 9.—The preliminary steps to the formation of an international association based on the principles of the American Protective association will be taken by the Supreme council of the order during the sessions in this city. The constitution will be broad enough to work under any constitutional government and in countries in which the laws are inimical to the principles of the order the members will simply confine their work to agitation.

The Rev. J. C. Madill, the head of the Canadian visiting delegation, reports the order growing rapidly there. It had over 100,000 members when the Grand council met last January, and nearly 25,000 members have been added since. It is in general working harmony with the organization of Orangemen, and has practically controlled the elections in the dominion the last two years.

The feature of the meeting yesterday was the speech of Mr. Madill on the separate school question. Mr. Madill thought that the dominion government will not insist on the carrying out of the remedial orders. He said the majority of the Catholics in Manitoba were in favor of the public school and that the present trouble was due to the agitation by the priests of the Province of Quebec and Montreal.

The convention adopted the report of the committee on credentials, which shows there are about 275 delegates present. Dr. Gow claims the order has 40,000 members in California and has succeeeding in ousting 75 per cent of the Roman Catholic officeholders. President Trainor will deliver his annual address this morning. In it he touches on every question before the American people except the financial question.

INCOME-TAX DECISION.

Lawyers Believe Justice Jackson Will Vote Against the Law.

Washington, May 9.—It is claimed that unless there is a decided change in the sentiment of Justice Jackson toward the income tax law, he will vote against that law. In that event the whole section of the Wilson-Gorman act will be stricken from the statute books. The arguments closed yesterday before the supreme court.

The best opinion is that the opponents of the law have made a much better impression that have its advocates. Nothing has transpired up to date to convince either one of the four justices who voted against the law in the first instance, that his judgment was erroneous. There is every reason to believe that the vote of Justice Jackson will decide the position of the court and there is scarcely a question of his position. Something may possibly arise to change it or it is possible that the consultation of Saturday may develop such arguments among the adherents of the law on the bench as will induce Mr. Jackson to cast his vote for an act which half the court has already declared unconstitutional, but the crowd of lawyers at and about the court room are almost unanimous in the opinion that the law will be declared unconstitutional. In that event the president will have no alternative other than to call an extra session of congress or to issue another batch of bonds not to make good the gold reserve but to provide the current expenses of the government.

DISPENSARY LAW INVALID.

Cannot Prevent Importation of Liquor—Registration Act Unconstitutional.

Columbia, S. C., May 9.—Judges Simonton and Goff have decided that the provision of the state dispensary law preventing importations of liquor for private use in the state is contrary to the interstate commerce act and is null and void. An injunction has been issued restraining the seizure of such liquor. The contempt proceedings against Liquor Commissioner Mixson and Constables Davis and Lafar were dismissed.

Judge Goff also declared the registration law unconstitutional and issued an order restraining Supervisor Green from performing the duties of his office.

Western Association Games.

At Des Moines, Ia.—Des Moines, 18; Jacksonville, 4.

At Omaha, Neb.—Omaha, 15; Peoria, 16.

At St. Joseph, Mo.—St. Joseph, 12; Rockfords, 14.

At Lincoln, Neb.—Lincoln, 8; Quincys, 4.

Inter-State Baseball Report.

At Lafayette, Ind.—Lafayette, 18; Aurora, 13.

At Fort Wayne, Ind.—Fort Wayne, 15; Hammond, 8.

TREATY RATIFIED BY THE CHINESE

AGREEMENT REACHED AT MIDNIGHT LAST NIGHT.

Japan and the Vanquished Nation Settle Their Differences For Good and For All—The Indemnity Guaranteed—Alleged Forger Is Remanded

Choo Foo, May 9.—The ratifications of the treaty of peace were exchanged at midnight last night. This is something of a surprise as China renewed yesterday, through the American Ministers here and in Peking, her entreaty for delay in the exchange of ratifications of the treaty of peace. Japan has consented to extend the time of the armistice four days. Count Myoji, Secretary-General to the Japanese Council of Ministers, arrived at Che Foo and met Lord Li, son of Li Hung Chang and junior Chinese Peace Commissioner. Count Myoji acted for Viscount Mutsu, the Japanese Foreign Minister, who is ill, in the exchange of the peace treaty ratifications.

Guarantees the Indemnity.

Shanghai, May 9.—It is reported that Sir Robert Hart, Inspector General of the Chinese Customs, has guaranteed the payment of the additional indemnity demanded by Japan as a result of relinquishing its claim to the Liao Tung Peninsula, in compliance with the views of Russia, France, and Germany. Sir Robert Hart, however, makes his guarantee conditional on the financing of the total indemnity being left in his hands.

Alleged Forger Remanded.

London, May 9.—Mendal Howard, an American citizen, who was arrested here April 29 on the charge of having in his possession engraved plates and other material for forging notes and postage stamps, was arraigned yesterday at the Westminster police court. The police also found at his lodgings plates for printing 1,000-franc notes, like those of the Bank of France, and for printing spurious French railway bonds, etc. The prisoner was remanded until Tuesday next.

Cholera on Warships.

London, May 9.—The Times publishes a dispatch from Kobe, Japan, stating that cholera has broken out on board the Japanese transports at Talienwan, on the Liao Tung Peninsula. It is reported that half the troop ships of the original Chirle expedition are flying the yellow flag, denoting the disease is aboard of them.

BRITAIN IN BAD ODOR.

Intense Enmity to England Develops in Nicaragua.

Managua, Nicaragua, via Galveston, Texas, May 9.—The £15,000 sterling to be paid by Nicaragua to Great Britain has been raised here by popular donations. Three German mercantile firms have given about £2,000, and the whole amount will be ready to be paid in London in a few days. The raising of the money, however, has only increased popular feeling in Nicaragua against Great Britain, and the feeling is now very bitter indeed. The general opinion seems to be that the Central American republic will form a combination, possibly secret, against Great Britain, and that everything possible will be done to exclude British goods from Central America. This feeling will probably result in commercial gain to the United States. There is no doubt, however, that the action of the three German firms in subscribing so liberally to the indemnity fund will prove a good stroke of business to them.

TROUBLE FEARED IN HAWAII.

Attitude of the Japanese Said to Menace the Government.

San Francisco, Cal., May 9.—It is probable the next sixty days will develop some very exciting scenes in Hawaii. The Japanese, who are numerous on the island, and who at present are feverish and elated over the victory of the mother country in the war with China, threaten to come forward and become serious factors in the government of Hawaii and the adjustment of its affairs. It is known that among the Japanese on the islands there are several hundred trained soldiers. In fact, there are enough to seize and control the government at any time, should they choose to do so. The natives are restless and dissatisfied, and only await an opportunity to fly in the thick of another insurrection.

Expects a Silver Walkover.

Springfield, Ill., May 9.—Secretary of State Hinrichsen, Chairman of the State Democratic committee, said yesterday that twenty counties have so far held conventions and without exception they have declared for free silver at the ratio of 16 to 1. "These twenty counties," said Mr. Hinrichsen, "have 46" of the 1,076 delegates in the state convention. Only one county committee so far has refused to call a convention. I am expecting the state convention will declare for free silver without a dissenting vote."

Demady Is Set Free.

Denver, May 9.—The jury in the Demady case returned a verdict acquitting him of the Tapper murder, after having been out four hours and a half. The prisoner, Richard Demady, was charged with the first one of the three stranglings, in which Lena Tapper, his mistress, was one of the victims.

Turney Is Inaugurated.

Nashville, Tenn., May 9.—The inauguration of Peter Turney, who was declared Governor by the Legislature Friday night, took place at noon yesterday in the hall of the House of Representatives at the Capitol. The Republican members all kept away.

KILLS THE MEASURE.

Bogardus Bill Against Train Robbing Not Passed.

Springfield, Ill., May 9.—The house yesterday, by a vote of 72 nays to 58 yeas, defeated the Bogardus train robbery bill. The fault of the measure lies in the sweeping definition of the crime of train robbery. Any act which tends to hamper the operation of a railroad seems to be classed under this title and made a capital offense. With such a law on the statute books, it is claimed, the railroads would have unprecedented protection, and any dissatisfied employe who became involved in an altercation with an agent of the road would be liable to prosecution and sentenced to the gallows.

F. H. Cooper has returned to Chicago. He has not been in jail nor deprived of his liberty. Sergeant-at-Arms Anderson refused to serve Mr. Cooper with the warrant issued by Lieutenant Governor Gill until the senate agreed to indemnify him. It is said that Mr. Gill had no right to issue the warrant until the senate ordered it. The case is still pending on the calendar.

Senator Green's insurance bill occupied the greater part of the session. It came up as a special order on second reading. The discussion turned on the amendments offered by Senator Green and which the Insurance committee had modified and reported with a favorable recommendation. After a long debate the bill with the committee amendments and one or two additional amendments offered on the floor was advanced to a third reading.

The "Anti-Ringer" bill passed by the House was passed by the Senate by a vote of—ayes, 36, noes, none. It came up as a special order.

Mr. Bryan's bill, regulating the sale of land for taxes and the redemption of the same, was passed. It provides, among other things, that the personat a tax sale offering to pay the amount due as taxes for the least percentage thereon as penalty shall be the purchaser; but it is provided that no bill shall be accepted for a penalty exceeding 25 per cent of the amount of the tax or special assessment. Real property so sold may be redeemed at any time before the expiration of two years by payment to the County Clerk of the amount for which the land was sold, together with the amount of the penalty, if redeemed within six months; twice the amount of the penalty if redeemed between six and twelve months; three times the penalty if redeemed between twelve and eighteen months; and four times the penalty if redeemed between eighteen months and two years.

LITTLE DOING AT JOLIET.

Steel Works Still and Many Men Laid Off by the Strike.

Joliet, Ill., May 9.—The men at the Illinois Steel company who struck several days ago are still out and business at the mill is almost suspended. On account of the switchmen, firemen and laborers quitting about 200 mechanics had to be laid off yesterday. The pattern shop was closed, seventeen men laid off in the boiler shop, seventy in the machine shops and twenty blacksmiths and helpers, besides a large number of machinists' helpers. The men are all quiet. No delegation from the workmen have waited upon any of the officers today, but it is hoped by both the company and the coolest of the men that the shut-down will notbe of long duration.

Drew $60,000 at Chicago.

Pierre, S. D., May 9.—In the Benedict hearing on the charge of larceny yesterday Attorney General Crawford asked for a continuance to secure witnesses from Chicago, which motion was granted. Affidavits set out that one Avery saw W. W. Taylor and H. M. Benedict in the Exchange National bank of Chicago, January 3, 1895. Taylor drew $60,000 of state funds and said he would take the cash to Dakota in person, with Benedict to assist in guarding it. Benedict will be rearrested on a charge of conspiracy to defraud as soon as the larceny case is completed.

Kentucky Mayor Commits Suicide.

Lexington, Ky., May 9.—After writing to his wife, to one of his two children, and to the editor of the Interior Journal, Dr. S. G. Hocker, Mayor of Stanford, committed suicide by hanging at his home. Dr. Hocker was twice married and leaves a large estate. In the letter to the editor of the Journal he says he decided to take his life on account of domestic trouble, which he had borne for years uncomplainingly.

Interstate League Schedule.

Terre Haute, Ind., May 9.—The schedule committee of the Western Interstate League concluded its work yesterday. The schedule brings a new club to a town after every two games, with a few exceptions. Each team will play ten games in succession at home and then be off on the circuit for ten. The Fort Wayne club will play its Sunday games at Warsaw.

Governor Not Arrested.

Topeka, Kan., May 9.—Governor Morrill was not arrested yesterday, as it was announced he would be, by the attorneys in the case for the reason, they say, that the man who is to swear to the complaint could not reach Topeka. The attorneys insist that the arrest will be made and that Morrill will have to stand trial.

Murders Her Husband's Companion.

Monett, Mo., May 9.—Mrs. Frank Collins, wife of a gambler here, shot and killed Annie Snodgrass of Fort Smith, who was walking along the street with Collins last night. Mrs. Collins surrendered to the police.

Against Grain Monopoly.

Berlin, May 9.—The Reichstag committee, by a vote of 13 to 12, rejected a motion made by Count Von Schwerin, Conservative, approving the principle of Count Von Kanitz's motion in favor of a government monopoly for grain, etc.

MET DEATH BY FIRE AT MONTROSE, COL.

GUEST BURNED UP AT THE HOTEL ARLINGTON.

C. H. Neprobas of Denver, Had No Chance for His Life—Mrs. Smith, Wife of the Proprietor Fatally Hurt—Locomotive Blown Up With Fatal Results.

Montrose, Col. May 9.—The Hotel Arlington was totally destroyed by fire this morning. The dead and injured are:

C. H. NEPRBAS, Denver; burned to death.

MRS. SMITH, wife of the proprietor of the hotel, injures fatal.

Neprbas was burned to death in his room, while Mrs. Smith was injured by jumping.

Hyde Park, Mass. May 9—A locomotive on the Boston and Maine line exploded this morning, killing one man, and injuring two more.

Perth Amboy, N. J. May 9.—An explosison of gas in the Roessler Chemical Works this morning, injured one man and completely wrecked the building.

Freight Wreck Cost Two Lives.

Celina, Ohio, May 9.—The east-bound freight, No. 124, on the Lake Erie & Western was wrecked one mile west of this city at 10 o'clock last night. Ten cars were smashed into splinters. Ote Bierely of St. Marys, Ohio, and Peter Finch of Portland, Ind., were instantly killed. George Anderson of St. Marys and William Depew of Portland, Ind., were seriously injured, Anderson probably fatally. These parties were all stealing rides. The wreck was caused by the engineer suddenly putting on the air brakes while going down a steep grade. Finch is the son of Deputy Sheriff Finch of Jay county, Indiana.

Flood Does Much Damage.

Rochester, N. Y., May 9.—Reports of a terrible cloud burst were received last night from the southern part of Ontario county. The bed of the railroad from Middlesex to Naples is washed out most of the way. Fields have been furrowed and the small streams have been transformed into rivers. The freight house at Rushville, it is reported, has been struck by lightning and destroyed. Great damage has been done to telegraph wires and in many offices the wires have been burned out.

Three Persons Burned to Death.

Budapest, May 9.—A conflagration in the town of Galshezees, in the Zemplin district, has destroyed 150 houses and three churches. Three persons were burned to death and four injured.

A CONVICT STABS A CONVICT

Cutting Affray in the State's Prison At Waupun Last Night.

Waupun, May 9.—Dick Fails, a prisonor in the state's prison on an eight years' sentence, was attacked by one of the life men last night and stabbed in the neck. His wound is serious but he will recover.

WITH MANY DELEGATES.

International Y. M. C. A. Convention in Springfield, Mass.

Springfield, Mass., May 9.—The international convention of the Young Men's Christian assiciation opened its annual session yesterday. Five hundred delegates, representing nearly forty states and territories, besides several provinces in Canada, were present. The following list of officers for the convention was unanimously approved: President, Henry M. Moore, Boston; vice-presidents, John E. Irvine, St. John, N. B.; James Stokes, New York; Henry J. McCoy, California; S. W. Woodward, Washington, D. C.; J. W. Giluly, Colorado; Prof. J. D. Dobyns, Mississippi; S. P. Fenn, Ohio; George Rutherford, Ohio; secretary, Wilbur M. Lewis, Georgia; assistant secretaries, T. D. Patton, Manitoba; Elgin C. Vanness, Michigan; and E. H. Moorman, Tennessee. Many interesting addresses were made at both afternoon and evening sessions. The report shows an aggregate membership of 244,077. The financial reports show an increase in the property held by the Y. M. C. A. of more than $2,000,000, with a total of $16,252,875.

END OF THE WAR AT HAND.

Report That Cuban Rebels Are Ready to Quit Fighting.

New York, May 9.—A special from Havana to a morning paper says: "The end of the war is at hand. The rumor is confirmed in all well informed circles. The chiefs of the insurgents have abandoned their cause in despair. Capt. Gen. Martinez Campos has ordered that the works on the port of Santiago be begun at once. Railway and telegraph lines are to be built, rebuilt and improved through Manzanillo, Bayamo, Puerto Principe, Santa Cruz, San Luis and Soriano. President Cleveland's cordial interview with Senor Dupuy de Lome, the Spanish minister, is reported by the newspapers here and causes great enthusiasm among the people. This is discernible, even in the wild applause with which is greeted the announcement that the Spanish government has ordained a diminution of the tax rate on all the industries and railways in Cuba."

Think He Is Insane.

Quincy, Ill., May 9.—As a result of the assignment of John J. Taylor of Fairbury, Ill., Tuesday, a receiver was appointed here yesterday for the big flour mill of Taylor Bros. & Co. John F. Taylor, soon after the receiver was appointed, attempted suicide at Fairbury. He was found hanging to a tree in the park surrounding his residence. He was cut down and it is probable his life will be saved. The feeling prevails here that he was temporarily insane and that there was no need of his confessing judgment.

SIMMS IS OUT AFTER A FEW A. P. A. SCALPS

FORMER LECTURER NOW DENOUNCES THE ORDER.

Challenges the Supreme President to a Joint Debate and Says That the Members Commit Perjury, Forge Alleged Encyclicals and Accept Money for Their Support.

The national convention of the American Protective association, which is now in session in Milwaukee, is confronted by some perplexing questions. One is whether or not the society shall throw off the mask and come out as an independent political party, and to other is what to do with "Prof" Walter Simms, who was formerly the "king bee" of the societies lectures, but now their most deadly enemy. "Prof" Simms has challenged Supreme President Traynor to a debate on the question and makes some very strong charges against the order.

"I am prepared to demonstrate that when a member of the American Protective association takes his oath of office as a public official he commits perjury, and that when a member of the order takes his oath as a juror he is also guilty of perjury," he said to a Cream City reporter last night.

"Did I take the A. P. A. oath? Yes, but I cast part of it aside because it was a nugatory oath, and I can show that it is. One part of it tells you to support the constitution, and another forces you to break it. I have all these proofs and I will show them to the people at the Academy of Music Thursday night." Mr. Simms said, "and I dare any of the men at the A. P. A. national convention to dispute me."

A. E. Gammage, a Chicago attorney and the former supreme secretary of the Michigan A. P. A., will occupy a seat on the stage with Professor Simms at the Academy tonight, and if any of the audience joins issue with the lecturer when he exposes the secrets of the A. P. A. Gammage will give corroberative evidence of Simms' testimony. Prof. Simms said:

Wants a Chance To Talk.

"Traynor would not accept my challenge because he did not want to get a big crowd over to my lecture, but I am told some of the officers of the American Protective association will be at the academy to call me down on my assertions. If they do I will give them all they want of the debate."

Simms says there are not more than 100,000 members of the A. P. A. in the United States, instead of over 2,000,000, as the officers claim. He says there are not more than 1,000 members in good standing at Chicago, though they claim 15,000, and that in Michigan, where 60,000 is claimed, the membership is less than 5,000. Among the other statements Simms will make in his lecture tonight is that the Michigan A. P. A. took sums of money from politicians in return for their influence, and will cite instances. This is a charge that it is expected will be resented by some of the Michigan members to the city, and that is why Attorney Gammage is here from Chicago to disprove the denials. Simms says he will demonstrate that the encyclical alleged to have been issued by the pope, about which so much capital was made by the A. P. A. was forged by a member of that organization.

"A Word To the Wise Is Sufficient."

I suffered terribly from a roaring in my head during an attack of catarrh, and became very deaf. I used Ely's Cream Balm, and in three weeks could hear as well as ever.—A. E. Newman, Graling, Mich.

One of my children had a very bad discharge from the nose. Physicians prescribed without benefit. After using Cream Balm a short time the disease was cured. O. A. Cary, Corning, N. Y.

NEVER in the entire history of the development of buggies have instruments of such surpassing merit been available as the "Wisconsin Kling" or the "Albemarle Stanhope" now being built for the season. We are convinced that they excel anything heretofore produced in the history of the buggy business, and we invite a rigid comparative examination on the part of all who are interested in the subject. CAN'T LIBERATE THE INSANE

Report That the Law Was Faulty Denied by the Authorities.

Rock county will probably do well to keep her insane asylum, as it will probably be used in the future as much as it has been in the past. The story was sent out that the legislature had forgotten to pass a suitable "commitment law", and that all lunatics might be let loose; but Hans B. Warner, president of the state board of control, characterizes as "all bosh" the report which was said to be founded on statements of court commissioners of Milwaukee.

"It is true," said Mr. Warner, "that court commissioners in Milwaukee have found and Judge Johnson has held that the present law relating to the commitment of the insane is invalid or unconstitutional, but county judges will keep right on committing insane people under it just the same. The decision of Judge Johnson or any other circuit judge on the constitutionality of the law cannot be regarded as final or carrying sufficient weight to warrant a suspension of proceedings under it, and until the supreme court declares the law invalid commitments under it will continue to be made. As to superintendents refusing to receive patients thus committed, they are bound to admit them under the law, and I don't think they are going to take it on themselves to decide a law unconstitutional even with Judge Johnson's assistance."

"There were bills on the subject before the Legislature, Senate and judiciary committee, composed almost entirely of excellent lawyers, but none were passed nor I believe recommended for passage. They evidently came to the conclusion that the present law is all right."

Ex-President Clarence Snyder, the democratic member of the board, said: "Illinois has abandoned the jury system of committing the insane and patterned after our law. During the four years the board of control has been in existence it has been called to sit as a board of lunacy to pass on commitments but three times and in every case the commitments were confirmed."

A POSTAL STATION FOR SPRING BROOK

RESIDENTS GET THEIR MAIL AT A STORE.

Think the Railroad Crossing Is Dangerous—Coal Car Run Down By An Engine—McKey Boulevard a Fine Bicycle Path—Other Items of Interest In That Addition.

Spring Brook is becoming quite metropolitan these days, the latest evidence of growth being the establishment of a "postal station" at that point. Under the rules of the department, the carrier cannot go beyond Eastern avenue, but the many people who live south of that thoroughfare, wanted their mail delivered. Then the postal authorities began investigating the questisn, and finally decided that all people residing beyond Eastern avenue could call for their mail at the grocery store of Samuels & Kuehns, at the corner of McKey boulevard and Eastern avenue. The mail is delivered there but once a day, and that in the morning.

Crossing Is Dangerous.

One of the most dangerous crossing in the city, the residents say, is on Eastern avenue, where the Northwestern tracks cross that thoroughfare. One of the steepest grades in the city extends from the Hall Furniture factory to the bridge, and they claim that people are in constant danger of their lives from flying cars which are cut loose from the engine at the top of the grade and allowed to run down on their own hook. An accident was narrowly averted there the other evening. A farmer was going home and when within twenty feet of the track, a train of six cars came skimming down, narrowly escaping his wagon.

Makes a Fine Wheel Path.

McKey boulevard has been a popular place with the cyclers of late, and scores of wheelmen have gone flying up and down that thoroughfare. The soil is especially adapted to wheeling, as it is soft and spongy. The "old fair grounds" had one of the finest tracks in this part of the country, all on account of the soil. The boulevard is exactly one mile long from Samuels & Kuehns grocery store, down to the Hall Furniture Factory, around the loop and back.

Start a Bicycle Factoey.

J. C. Shuler has added another indbstry to the Spring Brook enterprises in the way of a bicycle factory. Mr. Shuler, who has recently moved to McKey boulevard, has been interested in the bicycle business for years and has invented a machine of his own, which will be known as the Extra Bulletin. The machine will be constructed here and will soon be put upon the market.

Ran Into a Coal Car.

Spring Brook people saw a small railroad wreck the other day. A car of coal for the Dry Extract company was left on the track during the day and when the night crew came down the grade at a good rate of speed there was a collision, but besides a general shaking up and the breaking of the freight car trucks no further damage resulted.

To Open a Paint Shop.

T. J. Spohn has plans drawn for a paint shop which will soon be erected on Eastern avenue. Mr. Spohn has had years of experience in the paint business.

SOME MINOR NEWS NOTES.

THE black dirt at Spring Brook addition is being eagerly sought after by the residents in the center of the city. Complaint has reached the police to the effect that it is being stolen in wagon loads.

RESIDENTS in Spring Brook say that the boys are so thick there that 148 were counted in the vicinity of Eastern avenue and McKey boulevard playing about the electric light. All were under the age of fourteen years.

CROWDS line the Jackson street bridge these mornings and nights fishing, and as many as fifty people were seen there at one time last evening.

J. F. JOYCE, who has resided in Spring Brook for a number of years, has left for Chicago, where he will work in a wholesale house.

MISS LIZZIE KELLEY who resides on Eastern avenue, has accepted a position with a prominent Milwaukee law firm as stenographer.

HENRY SPOHN is building a fine residence, barn and a large tobacco shed on Eastern avenue.

NO CITY WANTS THE SCHOOL

Institution For the Feeble Minded Is Not Considered Desirable.

No city wants the State School for the feeble minded bad enough to apply for it although the state board of control has received individual applications from residents at Marinette, Green Bay, Wausau, Appleton and Eau Claire. Residents of some cities have sent in remonstrances against locating the school in their localities, the impression prevailing that it would be more of a nuisance than a benefit. The following announcement in regard to the matter is semi-officially given out by the board:

"The board has decided upon certain essential points that will be necessary in the location selected, and it will visit in a body as soon after July 1, as is possible, any city desiring to show a site filling the requirements. The site must:

"1. Contain from 200 to 600 acres of first class farming land.

"2. The land must be near a running stream of water, or have good drainage and water facilities.

"3. It must be within a short distance from a railroad track so that coal and other heavy supplies can be delivered at a minimum expense.

"The board will be satisfied with nothing short of the highest degree of fertility in the farm, which must be suitable for dairying and all farm purposes. It is preferred to buy a site perfect in all details, rather than to accept as a gift any farm that shall lack any essential needed for the highest development of the home which will probably be the largest institution built within a decade."

BRIEF BITS OF LOCAL NEWS

WE are, without any fear of contradiction, doing more business than any two stores in the town, and we are doing it on the basis of buying cheap and selling cheap. We don't mean by buying old plunder, because that isn't cheap at any price, but in buying only reliable first class shoes right, and then giving our trade the benefit. You can see through that. Brown Bros. & Lincoln.

IF there is a person who has been deceived in any way on the Fond du Lac stock, or our own stock, we would like to have them rise up and speak right out. When the best makes of shoes in the world are sold for 50 cents on the dollar, people are satisfied. That's what we are doing. Becker & Woodruff.

BE sure you get in the right store, if you are not sure, ask somebody outside. Don't go in any store to inquire, they would probably say, yes, "Youst the same, what you vant." Remember we have the only bankrupt stock in the city. Don't let any body fool you. Brown Bros. & Lincoln.

JUST half price. Fifty cents buys a dollar's worth of shoes every day now. All the best makes the world ever saw. No foot but what we can fit. Our knowledge of fitting feet came into good use when we bought that Fond du Lac stock. Becker & Woodruff.

DON'T you want one of our light running road wagons to use in the mud and save your good buggy. By the way, may be you haven't a good buggy. If that is the case come and look over our stock of Henneys. No better buggy made than the Henney.

IT'S a duty you owe yourself to buy where you can get the most for the least money. We have brought a stock of shoes to your door that are the best ever offered in the state, and only 50 cents on the dollar. Becker & Woodruff.

WE sold a pair of those North bicycle shoes to a traveling man yesterday for $2. Saved him an even dollar and he paid the express charges to Chicago to boot. No wonder we are doing the trade. Brown Bros. & Lincoln.

OUR Fond du Lac stock contains no plunder. Better goods are not made. Think of buying ladies' kid shoes for $1 a pair that cost from $1.50 to $2 at wholesale. We are selling them. Becker & Woodruff.

IN selecting your curtains see our big line of cottage drapery, all sorts and kinds. Tambo, muslins, swiss goods and coin spots. Bort, Bailey & Co.

LOOK the town over, examine every pair of shoes there is, and if you don't find a pair of shoes equal to our's, come back and we'll not feel offended. Becker & Woodruff.

GENTS' regular $5 Russia calf hand sewed tan shoes going at $3 a pair, all late toes, cost $3.50 wholesale. We are doing the trade. Becker & Woodruff.

THE formal opening of Crystal Springs Park takes place next Sunday. The Imperial band of eighteen pieces will play.

WE can show you today 75 new rolls of China matting. They are cool, clean and cheap, and cheerful on the floor. Bort, Bailey & Co.

GENTS, if you want something nice in tan goods, look at our line. We have all shades and colors in button and lace. Lloyd & Son.

MAIN STREET FOLK TALK OF PAVING

SAY THE PRESENT SYSTEM IS ALL WRONG

The Street at the South End Is the the Same as It Was Twenty Years Ago Regardless of the Money Spent For Hauling Gravel On and Off.

A number of the residents of South Main street are again agitating the question of what is going to be done with that street.

"Block pavement is my idea" remarks one.

"I'd rather macadamize it" says another.

"Something ought to be done about the matter" said a prominent citizen this morning. "That street has been a continual expense to both the city and the property owners for many years and will continue so unless something is done in the way of repairs that are of a permanent nature. Hauling gravel on one season and hauling it off the next is not a profitable way of fixing streets and the money spent that way in the past few years would have paved the street the whole length. Plenty of cash has been expended, but South Main street today is in no better condition than it was twenty years ago, if it is in even as good shape as it was then. It will be no better, either, unless the repairs made from time to time are of a permanent nature."

Since Street Commissioner Watson has taken hold of the office, a number of the residents along that street have approached him on the subject of paving. He has just completed graveling Pleasant street, and says that there isn't twenty-five cents a square yard difference between macadamizing and hauling dirt on and off. While on a visit to Madison Mr. Watson inspected the streets there, which have lately been macadamized, and says Madison people claim it is a saving of money to so fix streets, besides beautifying the city.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN THE CONTEST.

Five Shares of Stock in the Rock County Building, Loan and Saving Association Will be Given the Winner June 1—Value at Maturity Is $500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with $500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.

It will buy a buy a building lot.

It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for $500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to to Ballot Editor. Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Asssociation. cash value, $500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month. 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more that three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

1760—Nicholas Ludwig Zinzendorf, count, founder of Moravian Brethren, died at Herrnhut, in Lusatia; born May 26, 1700. Zinzendorf founded a religious settlement at Herrnhut for Moravian refugees. He conceived the idea of giving practical life to the ancient organization and became a preacher and bishop of that church. In 1741 he visited America and established missions at Germantown and Bethlehem, Pa. Two years later he returned to Europe and spent his last days at Herrnhut.

THE REAL ISSUE.

While tariff reform and a sound financial policy will enter into the next campaign the real issue will be democratic incompetency. The warning note was sounded in no uncertain tunes at the state elections last fall and the same strain has been emphasized at every municipal election since.

The whole country has been thoroughly aroused to the fact that there is something radically wrong with the affairs of government, and from one end of the country to the other a demand will be made for the retirement of the democratic party. This popular verdict is not the result of hasty judgment or vacillating action. The theory that a "change" was desirable, and the expression that brought it about in 1892 has been fully tested, and thousands of voters, who contributed to republican defeat then, will return to the old ranks, thoroughly satisfied that a mistake was made and with a determination to right the wrong at the first opportunity. The ranks will be enforced by an army of citizens not heretofore identified with the party whose hard experience has taught them some useful lessons. The democratic press of the country has simply nothing to say in defense of the party, indefensible, indelibly stamped on every living issue, and silence is recognized as the only wise course to persue. No effort at explanation even, is offered, because the cold facts are too stubborn. The trouble with democracy is, that the rank and file of the party are on their best behavior when well governed, and the party is short of intelligent leaders, who can agree on any given policy. The better element of the party believe in good government, and endorse many measures adopted and successfully worked by the republican party. The weakest features of this element is an inordinate desire to court England, and the old world at the expense of America and America institutions. That the south should be carried away with this sentiment is natural, because she recognizes the fast friendships of England during the years of rebellion, but why intelligent party leaders in the north should be tinctured with the same heresy, is unexplainable. It shows a lack of statesmanship that is inexcusable, and that will not long be tolerated by an intelligent people.

This nation if anything, is intensely practical. It has but little use for theories and it is fast learning that democracy is intensely and persistently theoretical.

A theory that paralyzes business, spends a surplus, and creates a national debt of 165 millions in two years is a bad thing to tie to, and the connection will be severed most effectually in 1896.

Chauncey M. Depew spoke before the chamber of commerce, New York, a few days ago, and in referring to the free silver doctrine, he cited an incident that came under his personal observation in England two years ago. It covers the ground completely, and ought to satisfy the most enthusiastic free silverite that America would be in the same condition as India, under the free and unlimited coinage act. Mr. Depew said: "When I was in Europe and Asia, two years ago, I met everywhere the families of men in various employments in India. Silver had then fallen below 60. These officers in the civil service in India, and the men in business there, were paid in the Indian rupee, a silver piece. They were educating their children in Europe, and had to transmit from their wages enough to take care of their families. Of course they had to pay in Europe the coin they had received in India, the silver rupee, and they suddenly found that their incomes were reduced about one-half, and I found them suffering great distress. It was largely the condition of these classes and their loud protest which led the English government to demonetize silver in India.

The Green Bay Advocate, like all other democratic organs, is seeking in vain for a grain of comfort from the party to which it is committed. The Advocate takes exception to the statement recently made by The Gazette, that the country had lost $51,000,000 during last eight months by the new tariff bill, and goes on to say that the loss is made good many times over by the decreased cost of living and the revival of home manufactures.

This theory like all other free trade theories is very fine. American labor has lost by enforced idleness and reduced wages on account of foreign competition more than a million dollars a day for twenty months. As a result soup has been plenty and the price reasonable. The cost of living cuts no figure when people simply exist. Dollar wheat and plenty of work at good wages is cheaper than fifty cent wheat and idleness. Another change is needed.

From 1866 to 1893 the receipts of the government exceeded expenditures from two millions to 145 million dollars each year, during that time the national debt was decreased $1,200,000,000. Democracy took control last year, and run the country in debt $70,000,000. Another change is needed.

1,450 woolen mills in this country, gave employment to 123,000 workmen in 1890. The first two months of 1895 we imported eight million dollars worth more woolen goods than during the same period in 1894. If this percentage of increase is kept up through the year more than half the home mills will be closed.

This country has imported one and a half million bales more of cotton in the last eight months, than it did for the corresponding period a year ago. Every bale represented a sacrifice to American labor, and aid for the old world. A fair sample of democratic philanthropy and stupidity.

Cotton mill employes in all parts of the country will realize then when we import nine million yards more cotton goods in six months than we did a year ago, that English labor is doing a good deal of work for us that should be done at home.

Study and Practice Makes Perfect.

No business or profession can be mastered without a great deal of preliminary study. Some have an idea that the optical business can be learned in a week. It is natural to suppose that the eye, one of the most delicate organs of the body can be given second sight by a person who has had only one week's study? One will find these weak students of the optics—almost every day—and what do they amount to? Not a single instance can be quoted where they gave satisfaction. Our Mr. Hayes has studied the optical business for the last 10 years, almost, and only last week the opthalmic college at Chicago, where he is first assistant, called him there to assist in a case he had never came in contact with before. Whole Mr. Hayes is an expert in fitting glasses, he is willing to learn, and will never say he is actually perfect. F. C. Cook & Co.

NOW, THE TIME TO MAKE MONEY.

Last month I cleared, after paying all expenses, $235 38; the month before $186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for $5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co. Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make $5 to $10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. THE STRIKE MAY END ON MONDAY MORNING

IF IT IS NOT SETTLED THEN IT WILL NOT BE.

Stockholder Intimates That the Employes Will Be Given a Chance to Go Back and If They Do Not Accept, the Plant Will Remain Idle—Employes Get Jobs.

"If the Janesville cotton mills don't start up next Monday, the chances are that they will remain idle all summer," said a gentleman this morning, who is familiar with the inside working of the factories, and who is also a large stockholder in the company.

"I understand that all the old employes can resume work next Monday if they so elect," he continued, but if they fail to go in at that time under the present schedule of wages, the factories will be closed for some time, as there is no money made for the company at the present market price for our manufactured goods."

Hearing this statement a Gazette reporter hurried to the office of the cotton company for the purpose of interviewing Manager Heller, but found the factory entirely deserted except by the day-watch who did not know anything as to future movements.

However, many rumors are floating around, one to the effect that the company had agreed with a committee of strikers to advance the wage schedule 5 per cent, but this was not true.

It is learned that many of the employes, girls and boys, have found work in the tobacco warehouses, but it is not expected that the warehouses will be able to keep them at work only for a brief time.

C. MILTIMORE CATCHES RUNAWAYS

Took After Flying Animals On Horseback And "Rounded 'Em Up"

C. K. Miltimore won the plaudits of the crowd by catching two runaways on North Main street at noon today. W. H. Graves' horse, attached to a light wagon took fright on South Main street and made a lively run north. Reaching George Prichard's plumbing establishment the runaway collided with Mr. Prichard's wagon, slightly damaging both vehicles. Mr. Miltimore chanced to be riding one of his bronchos, on Milwaukee near Main street, when the runaway passed across Milwaukee street, and he gave chase catching one runaway on Prospect avenue. Mr. Prichard's horse also undertook to make a home run, but was also caught by Mr. Miltimore. Very little damage resulted, but there was considerable excitement along the street.

THE GIRL WAS OVERCOME BY GAS

Miss Hattie Hankey Had a Narrow Escape Wednesday Morning.

Miss Hattie Hankey, who is employed as a servant at the home of Dr. and Mrs. James Mills, in her anxiety to turn the gas clear off, turned the button too far Wednesday night and was found early in the morning nearly dead as the result of inhaling the deadly fluid. She soon recovered, however, and is now all right again.

THE FINAL CALL IS ANSWERED.

Morris Ensign.

Morris Ensign who had resided in Rock and Walworth counties for fifty-four years, died at the home of his daughter Mrs. H. R. Johnson at 8:30 o'clock last evening aged eighty years. Mr. Ensign had been in feeble health for some time past and for the past two weeks had been confined to his bed. Besides an aged wife he leaves two sons and one daughter, Burdette M. Ensign, of Fergus Falls, Minn., Edward B. Ensign and Mrs. H. R. Johnson, both of this city.

Funeral of A. S. Griswold.

Rev. A. Porter, of the First Methodist church, conducted the funeral of A. S. Griswold, which was held at the home, 219 North Jackson street, at 2:30 o'clock this afternoon. There was a large attendance, members of the Good Templars Lodge and of the United Workmen, of which societies the deceased was a member, attending in a body, while at the grave the United Workmen conducted the burial in accordance with their ritual.

Funeral of Mrs. Stannard.

The remains of Mrs. Almira Stannard were buried in Oak Hill this morning, the funeral services, conducted by Rev. Dr. M. G. Hodge of the Baptist church being held at the home in the town of Janesville at 10 o'clock. The pall bearers were James Cleland, Thomas Welch, J. W. Nash, David Lowery, David Yoemans and James Little.

Dennis J. Donovan.

Dennis J. Donovan, a former resident of this city, died at Chicago yesterday, aged twenty-eight years, and the remains will be brought to Janesville tomorrow noon, the funeral services occurring at St. Mary's church. Mr. Donovan lived in the Bower City until five years ago when he located in Chicago.

AN EX-CHOIR LEADER BEFORE THE COURT

JAY JONES OF CLINTON CHARGED WITH EMBEZZLEMENT.

He Had Nine Years' Experience As Church Organist and Leader of the Singing Before He Fell From Grace—Sharpers Said to Be Headed This Way.

Jay Jones, who for nine years officiated as choir leader and organist in Clinton churches, and then fell from grace, faced Judge Phelps in the municipal court this morning, the charge "embezzlement" being written after his name on the court record. It was charged that Mr. Jones collected a bill for Olaf Johnson but did not turn in the money, today's proceedings being the preliminary examination, but after the examination of a few witnesses who were about to leave the state, the case was continued until May 20. District Attorney Jackson appeared for the state, and J. L. Mahoney for the defendant.

Swindlers on Their Way Here.

Information reaches the city to the effect that a number of slick fakirs are now endeavoring to work a number of swindling games upon the country people; but so far as learned they have not been very successful. One is the sale of pianos and melodeons on a similar swindling game as that formerly played by the lightning rod vender. The fakirs ascertain, the name of the parties visited, their financial standing, etc., and then call on him, to colicit his services as local or township agent for their musical instruments. No commissions are offered, but "Farmer Jones will tell you just what our house will do with you, seeing that you are one of the leading men of this town. We will give you a commission to sell our instruments. If you sell three pianos we will make you a present of one of our best pianos. Or if you sell three melodeons, we will present you our best melodeon. No house ever offered such premiums before, and the hard times, and large stock on hands, only permits us to make these offers, in order to turn a portion of our immense stock into ready cash."

In case Farmer Jones takes the bait, he is given his commission to act, and in the course of the deal he is induced to sign a receipt, which afterwards turns up as a promisory note for him to pay. No pianos ever materialize.

The "soap fakirs" is another old dodge renewed. This time the fakirs come from the neighborhood of Rock Island, Ill., and claim to sell a certain kind of soap, fraudulently using the names of prominent local druggists to further their scheme. The police have been put onto these swindlers and are watching for them.

Will Bates Taken For Uncle Tom

Sheriff Appleby posed last evening in Waupun as the advance agent of an "Uncle Tom's Cabin" combination, or at least the amusement people of that somewhat notorious village imagined him to be playing that role while escorting Will Bates to the "pen." It so happened that an "Uncle Tom's Cabin" company was in Waupun last night and gave an exhibition in the public hall. Just as the sheriff arrived in the village with his typical plantation negro, on his way prison, the band attached to the exhibition began to play in the streets, and of course, the sheriff's prisoner had his attention drawn to the melody of the plantation music being discoursed.

"There goes Uncle Tom," cried the street urchins following the band. "Ain't he a husky darky?"

As the sheriff and his negro prisoner quietly passed down the avenue, towards the prison, there were many remarks heard from those watching the street parade, all to the effect that the show, with such a typical negro for Uncle Tom, would be good, and sure enough the hall was crowded to the doors.

Brakeman Injured While Coupling Chicago & Northwestern Cars.

E. W. Burns, who resides on Pleasant street, opposite the new high school building, met with a painful accident while coupling cars on the Chicago & Northwestern way freight between this city and Chicago. Mr. Burns works on Conductor F. D. Sughrua's train, and while making a coupling, caught his fingers between the pin and the dead-lock.

AX-WOOD, CLOTHESLINE MAN, HURT

William Welsh Received a Deep Gash In His Head Last Night.

William Welch who resides at 61 North Franklin, met with a painful accident last evening. While splitting wood near a clothesline, the ax caught in the rope and was thrown in such a way as to strike Welsh on the head cutting a deep gash. He was taken to the office of Dr. Clark, where a number of stitches were required to close up the cut.

WHEELMEN WANT ROAD SIGNS

League Will Use Its Influence To Have the Laws Enforced.

The Wisconsin division of the League of American Wheelmen has determined to use its influence and its power to enforce the state law in Wisconsin, which provides that guide posts shall be erected at the intersection of all main traveled roads. These sign boards are extremely scarce in this state, yet Wisconsin has one of the best of sign board laws.

BIG DAMAGE SUIT BEFORE JUDGE BENNETT.

Plaintiff Seeks to Recover That Sum From the Milwaukee & Superior Railroad Company for Injuries Received—Evansville Woman Gets $800 For a Fall.

An important case will come up in the circuit court on Monday next, on charge of venue form Waukesha county circuit, it being entitled Frederick Albrecht, against Milwaukee & Superior Railway company. The plaintiff sues to recover $25,000 damages, basing his suit on injuries received while in the employ of defedant company. On September 30, 1892, the plaintiff was in Menominee, Waukesha county, in the employ of the defendant company as brakeman on a freight train, and while in that place a switch engine ran off a spur track into the train on which plaintiff was so employed, breaking plaintiff's left leg and injuring him internally. His leg, in mending, was made permanently crooked and two inches shorter than normal, besides it is alleged his internal injuries have ever caused him pain, unrest and worry, and he brings suit to recover personal damages in the above amount. D. H. Sumner, Ryan & Morton appear for plaintiff, and Winkler, Flanders, Smith, Bottum & Vilas for the defendant.

The jury in the case of Emma Belle Carey against Martin H. Broderick, brought in a verdict in favor of the plaintiff amounting to $800. The plaintiff resides in Evansville, and brought suit to recover personal damages received by a fall on a defective sidewalk owned by defendant in that village.

The judge has excused the petit jurors until Monday morning at 9 o'clock, at which time the Waukesha case will be taken up.

The jury in the case of Sherman F. Phelps vs. T. H. Bidwell, last evening brought in a verdict in favor of the plaintiff in the sum of $18. The suit grew out of the digging of a well by the plaintiff for the defendant, the latter claiming that the contract was not fulfilled and therefore he was not liable for the payment for the work.

THE DRY EXTRACT CO.,
Gentlemen:—
We value Milkine very highly. We had tried feeding our baby on milk and other food. She always seemed hungry and did not thrive at all. We were advised by a friend to try Milkine, This agreed with her perfectly. She is now growing and is strong and healthy. We believe Milkine to be superior to anything of the kind for children.

CITY PROPERTY
"He that hath a house to put his head in, has a good head piece."
That is what the jester said to King Lear after he had divided his domain between his daughters, when they, seeming to be void of all gratitude, turned their poor old father out into the cold world.
Surely the daughters of Janesville would not be guilty of such an act even if their fathers were to put the titles to houses in their names.
Look at our houses, take the title to yourself, and we would suggest that as an investment or saving fund for wife; daughters, or any one, we think our plan of selling houses affords an excellent chance of earning interest on the money you have invested, together with the Saving Fund feature of being able to pay something one count from time to time.
No trouble to talk over all plans with any one.

NEW SKIRTS.

Numerous Styles of Cutting Skirts—A Resort to Padding.

There are no less than 18 new ways of cutting the skirt, all equally fashionable. The reason of this diversity is that we get our fashions from France, and a Frenchwoman has an instinct which prevents her from adopting any fashion which does not suit her individually and causes her to insist upon such changes in it as may best set off her good points and conceal her

WALKING GOWN.

bad ones. Thus in accepting the short, full skirt she varies it in each case to suit her own peculiarities.

The princess skirt, for instance, cut in one with the bodice, is smooth fitting in front, but has a broad plait over the hips and a box plait behind.

The average skirt is very full and much gored. It fits the hips closely and is smooth in front. The immense size of the sleeve has forced attention to the hips, which, when naturally narrow, are now padded in order to bring them to bear the proper proportion to the upper part of the figure. Fashion authorities also consider it necessary to have the forearm made larger in proportion, and from the elbow to the wrist a trimming is frequently contrived of fine tucks, frills of lace or cut cloth over a contrasting lining.

Lace is now usually set on over either frills of chiffon or puffed chiffon laid on the under material. The petticoats of the best French dressmakers have these puffings, and over the puffs a flounce of chiffon, which holds out the lace flounce. This is very expensive, but very charming.

The gown shown in the sketch is of striped beige wool. The skirt is very wide. The plain bodice has two lengthwise ribbons behind and three in front, simulating plaits, which form loops below the waist with basque effect. The belt is of white satin fastened with four antique buttons. The collar is also of white satin, covered with guipure. The balloon sleeves are of elbow length. JUDIC CHOLLET.

SKIRTS AND HATS.

Dresses Worn Longer Behind and Lined With Stiff Silk.

The latest skirts which have emanated from the establishments of the recognized Parisian authorities in matters of the toilet have plain fronts, fitted over the hips by darts. The back part, from the hips, is cut on the cross and rests on the ground. It is to be hoped, by the way, that another era of trailing street skirts is not to be inaugurated; with the weight of a train added to that of already voluminous skirts, entirely lined, the mere physical burden of a gown will disable the wearer. These model skirts, to return to the immediate subject, are neither crinolined nor wired, but are lined throughout with thick silk. No drapery is employed.

The high trimming on toques is now very simple and airy, consisting of a light tuft of feathers or a single erect bow. An-

BENGALINE GOWN.

other example of recent fashion in hats is a silk toque, adorned with a double diadem of glace velvet and side aigrets.

For a well rounded figure a becoming skirt has just one moderately wide box plait in the middle of the back, and a single fold on each side of the box plait, appearing from it to the width of 1½ inches.

Moire has by no means gone out in Paris and other fashionable centers of France. A well cut skirt of miroir moire, worn with a handsome blouse, with mauve or green miroir velvet sleeves, makes an ideal toilet for day receptions.

A great deal of rough, coarse looking straw and chip is worn, but it is as expensive as the fine goods, or more so. The roughness is picturesque, especially in large hats, and as there is usually an admixture of lace or fancy weaves, there is no lack of fashionable effect. A glossy finished braid that imitates jet is among the novelties in black goods.

The gown illustrated is of pearl gray bengaline. Three narrow bands of white guipure trim the foot. The blouse bodice of the same material shows a curious arrangement of folds in front, which narrow toward the collar, to which they ascend. A box plait of jacqueminot velvet occupies the middle of the front, while a large collar of white guipure covers the shoulders. The belt and collar are of jacqueminot velvet, as are the balloon puffs of the sleeves, the deep cuffs being of bengaline covered with stripes of guipure.

Second Dude—'Deed, ole fellah! I had my hair cut at the barber's, and I had to take gas.—Texas Siftings.

An Eye to the Future.

Gus De Smith—You are always giving your girl diamonds. That's too confounded expensive. Why don't you give her candy and flowers?

Charlie Bondclipper—I reckon I know what I'm doing. Flowers fade and candy is eaten up, but diamonds stay right in the family where I can get them back again after we are married.—Alex Sweet, in Texas Siftings.

He Figured Prominently.

"There is a man who figures prominently in our business," said Snaggs, who was showing his friend Gaswell through the establishment.

"The man with the pen behind his ear?" asked Gaswell.

"Yes."

Tommy—Something that you hit.

Teacher—What's that you say?

Tommy—Something that you hit, sir.

Teacher—What nonsense!

Tommy—Why, I heard you say yourself yesterday to the examiner that you had been striking an average.—Judy.

The Practical Side.

Rambler—Our minister has received a call from somewhere else at more money, and I understand he has been home two days praying for guidance.

Casttleton—What does his wife think about it?

Rambler—Oh! she's packing up.—Puck.

An Effective Remedy.

Mr. Henpeck—I am nervous, excited and completely broken down. I must have quiet. Don't you think I ought to take a sea voyage?

Doctor—No, that's not necessary. Send your wife off on a sea voyage.—Alex Sweet, in Texas Siftings.

Uncomfortable Meals.

Mrs. Mugg—So you're not going to Mrs. Lugg's party?

Mrs. Pugg—No, I'm not. When supper comes she always tells about a lot of nice things she intended to get, but couldn't.—N. Y. Weekly.

She Listens to Oaths.

Jollicus — There's a woman who rather likes to hear men swear before her.

Follicus—Astonishing! How do you account for it?

Jollicus—She's been a made a notary public.—N. Y. World.

A Bond of Sympathy.

Mrs. Hicks—This paper tells about a hunting dog that has formed a strange attachment for an old hen. How do you account for that?

Mr. Sport—Probably they are both setters.—Truth.

Cash at Both Ends.

Gummey—Money is at the bottom of both marriage and divorce.

Glanders—Ah?

Gummey—Yes, matrimony and alimony.—N. Y. World.

He Thought He Was.

She (at church wedding)—Are you a friend of the family?

He—Yes. She's marrying him because she thinks she's spiting me.—Town Topics.

Flattering.

Wiggs—What did you think of my new photographs?

Waggs—I thought you ought to pay double price to the photographer.—Somerville Journal.

No Danger of Spoiling.

Razzle—Old Soak, despite his habits, appears to be a well-preserved man.

Dazzle—Yes, you know since he lost his money, he has been kept in brandy by his friends.—Life.

Disqualified.

DR. P. H. SHARP

The Most Successful Specialist In All Nervous, Private and Chronic Diseases of Men and Women.

Dr. Sharp has for 20 years made a Special Study and Practice of these Maladies which have proved such stumbling blocks to the medical profession. More failures are recorded in these three lines of practice than in all the 1000 remaining diseases to which the human race is subject.

The doctor's success is phenomenal in his chosen field.

He Absolutely Cures 98 per cent of the cases he accepts for treatment.

This high percentage is in part due to his rejection of all incurable ones So there are no experiments and but few failures.

YOUNG MEN troubled with results of younger indescretions can be safely and surely cured. I know it.

MIDDLE-AGED MEN can have a new lease of vitality.

OLD MEN can take a new hold on life and its joys.

WOMEN can find not only relief but positive cure for their many annoying and dangerous ailments.

Leucorrhea, Painful Menstruation Delayed or Obstructed Menstrual Periods. Headaches, Ovarian Inflammation, Etc.

FREE TREATMENT.

For one week, commencing Thursday, April 4, Dr. Sharp will give free treatment to all patients till they are cured.

MERCURIAL POISON

results from the usual treatment of blood troubles by which the system is filled with mercury and potash mixtures—more to be dreaded than the disease—and in a short while is in a worse condition than before.

RHEUMATISM soon takes possession of the frame and its shooting pains and aching joints make life miserable. S.S.S. is a reliable cure for mercurial rheumatism, and affords relief even after all else has failed. It is guaranteed purely vegetable, and absolutely harmless; take no substitute. Send for our treatise on blood and skin diseases, mailed free to any address.

HUNDREDS RIDE ON BICYCLES

The Streets Are Alive With Wheelmen These Fine Evenings.

Bicycle riders are enjoying themselves on wheels these bright moonlight nights. One rider dismounted at the postoffice last evening, after taking a whirl down South Jackson street, and remarked, "that he had never seen so many people out on wheels."

"I have just taken a ride of three or four miles, and I believe I passed or met at least one hundred and fifty riders," he said. "I could not believe there were so many wheels owned in the city. One thing wheelmen ought to do," he continued, "and that is to keep off Main and Milwaukee streets when there are so many teams out. Some one will get badly hurt by collissions. I have seen several very narrow escapes this evening."

THEY HAD A BIG RAT KILLING.

Nearly Three Hundred Rodents Were Slain With Clubs.

When the Franklin street slaughter houses were torn down, the men who were doing the work killed two hundred and eighty rats one day and three hundred others got away alive. Then the slaughter houses were clear of the pests for awhile, but the butchers say that the rodents have located the new houses and are about as plentiful as ever again. Some of them, a local butcher says, "are as big as rabbits." The location of slaughter houses at "Hackhawk" has attracted the rats from neighboring farms until they are now rarely seen about the corncribs. Galbraith brothers' large barns used to be alive with rats but now one is seldom seen about the place.

To Reopen the Davis Will Case.

New York, May 9.—Following closely upon the news of the settlement in Butte, Mont., of the contest over the millions left by Andrew J. Davis comes the announcement that the case is to be reopened, and the long and bitter fight begun all over again. The new contestants are Erwin Davis, of this city, Calvin Davis of California, and three sisters.

A Corner in Gold.

New York, May 9.—The story from Washington that the bond syndicate was gathering up bar gold in the West and holding it for possible contingencies was verified in Wall street yesterday. The syndicate has been taking this bar gold presumably at a slight advance over assay office posted rates. This is practically creating a corner in gold.

Gresham Continues to Mend.

Washington, May 9.—Secretary Gresham continues to mend and his condition was much improved last night. Representative Hitt's condition remains unchanged.

THE AFTON BRANCH KEPT WARM

The Lumber Traffic Keeps the Rails Polished Up All the Time.

AFTON, May 9—The Janesville-Afton branch of the great Chicago and Northwestern railway is doing quite a freight business for these slack times, for connecting as it does, the lumber district of the north with the coal fields of the south makes it an important link in the Northwestern system, and a number of good sized trains pass over it each way daily. Engineer Sherwood of the Janesville passenger now awakens the echoes with a deep toned chime whistle which engine 84 was fitted up with during its recent lay off. A "hot box" delayed the paper train here about half an hour Tuesday morning. Peter Drafarl has come into possession of the French Percheron stallion "Sansonnett" (1861), formerly the property of J. G. Helm of Porter, and known as the "Helm horse." E. E. Burdick, Janesville's well known artist, was down on a sketching tour Wednesday, with good results. He pronounces Afton's scenery good for Artistic work. Mr. and Mrs. John C. Eddy are rejoicing over the arrival of a little son, who came to abide with them Friday, May 3. All doing well.

Quoting a few Remarks made by Visitors and Customers.

A prominent real estate man said, "young man you have the best line of woolens EVER seen in Janesville."

Another prominent real estate man ordered his second suit of me yesterday. Actions speak louder than words.

A mercantile man remarked "you are what we most needed, 1st a cutter, 2nd, Reasonable Prices"

A lady selecting a suit for her son, said, "everybody told me this was the right place to come."

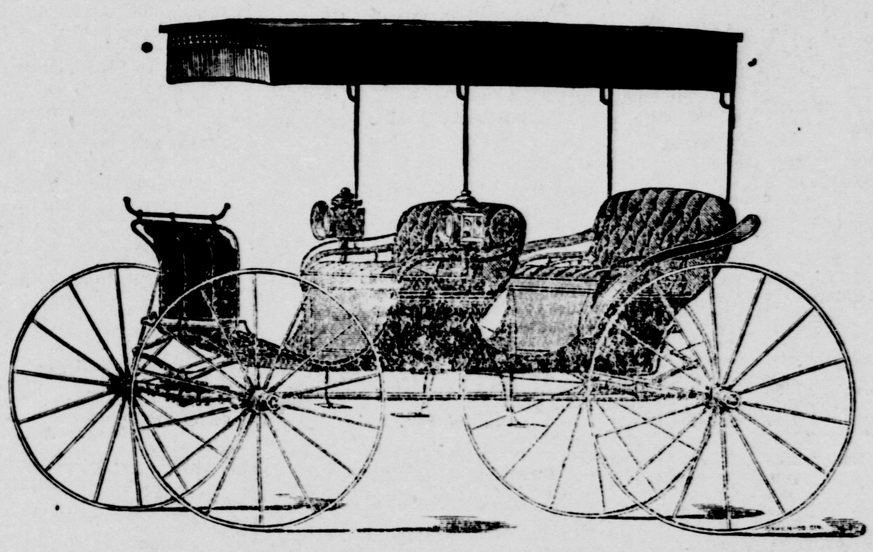

You no doubt have thought and perhaps you thought right that you could not get satisfactory clothing made in Janesville. There are hundreds of people who get them made in Chicago or Milwaukee.

FOR SALE

A Model Milling Plant.

The recent death of the owner makes the sale of this plant necessary. It consists of a flouring mill, packing-storage house and two elevators. The mill is 60x66 feet, four stories and basement constructed of stone, brick and frame, the frame part being iron-clad. Capacity 300 barrels per day. The storage-packing house is 30x120 feet two stories. The elevators each have a capacity of 30,000 and 50,000 bushels. A branch railway track runs between the mill and packing-storage house. This plant was ALL remodeled and made new in 1894. The business of this plant has paid the owner, up to his death, from $8,000 to $20,000 per year. This plant cost over $80,000 and is the finest one in the northwest. It is run by water power and situated in Janesville, Wis. except the large elevator which is at Lake Preston, S. D. There is no encumbrance and it will be sold upon easy terms or can be exchanged for first-class real estate.
